

Blooms Ball

- 1. Carefully cut out twelve circles from construction paper You will be using one circle to complete each of the twelve steps.
- 2. Before completing each of the following steps, be certain to observe where the fold lines are located. Do not write or draw outside of the lines.
- 3. Complete steps 1-12 below in your circles. Be very neat and add color. You may write directly on the circles if the paper is a light color or you may type it and glue to the circle.
- 4. Decorate the edges of your circles...your choice. Fold each circle on the straight lines so that the edges are facing to the outside.
- 5. When all of the other steps are completed, glue or staple the circles together. Be sure all the edges are facing out! You can attach a string for hanging the bloom ball.

Social Studies Project

- Map of Latin America: Label all Countries (In standard) and physical features
- Map of Canada: Label all physical features (in standard)
- Map of Europe: : Label all Countries (in standard) and physical features
